# SCRUM Certification PSM 1

ALL-IN-ONE : EXAM INCLUDED IN PRICE

2 days (14 hours)

## Presentation

Under the banner of agility and its Manifesto, Scrum provides a framework for product development. Within teams, Scrum offers a special role: Scrum Master.

The Scrum Master is the person who helps the team apply Scrum and adapt it to the context. It is the Scrum Master who encourages the team to progress, encourages them to become autonomous, and removes obstacles that could hinder progress.

Alternating theory and exercises, this "Scrum Master" training course provides participants with the basic elements of how to apply Scrum, and prepares them to take the Scrum.org "PSM I" certification.

## Objectives

- Understand the role of the Scrum Master.
- Know the activities of the Scrum Master.
- Plan your action in an agile project as a Scrum Master.
- Pass the Scrum.org "PSM I" exam.

## Target audience

Includes but is not limited to

- Future Scrum Masters,
- Project Managers, Team Leaders, Project Actors,
- Anyone who needs to be involved in an agile project, either as a contributor or as a supervisor of contributors.

# Prerequisites

Must have read the SCRUM Guide and have a minimum knowledge of agile fundamentals or iterative and incremental development. Correct level of written English.

## Exam

The exam takes place on the last day, online and in English. It consists of a one-hour MCQ, with 80 questions. A minimum score of 85% is required to pass the exam.

## To go further

We suggest you take the second [Scrum PSM2 in advanced](#) level .

Ambient-it does not own the Scrum Developer PSM 1® certification, it is the property of Scrum.org™

## Companies concerned

This course is aimed at both individuals and companies, large or small, wishing to train their teams in a new advanced IT technology, or to acquire specific business knowledge or modern methods.

## Positioning on entry to training

Positioning at the start of training complies with Qualiopi quality criteria. As soon as registration is confirmed, the learner receives a self-assessment questionnaire which enables us to assess his or her estimated level of proficiency in different types of technology, as well as his or her expectations and personal objectives for the training to come, within the limits imposed by the selected format. This

questionnaire also enables us to anticipate any connection or security difficulties within the company (intra-company or virtual classroom) which could be problematic for the follow-up and smooth running of the training session.

## Teaching methods

Practical training: 60% hands-on, 40% theory. Training material distributed in digital format to all participants.

## Organization

The course alternates theoretical input from the trainer, supported by examples, with brainstorming sessions and group work.

## Validation

At the end of the session, a multiple-choice questionnaire verifies the correct acquisition of skills.

## Certification

A certificate will be awarded to each trainee who completes the entire course.
