Power BI Mobile training: Your BI data at your fingertips

0.5 days (3h30)

Presentation

Take your data absolutely anywhere! Our Power BI Mobile training will enable you to analyze your key data from your cell phone or tablet.

Strengthen your Business Intelligence skills with our exclusive training course. Explore the Power BI gallery, learn how to analyze your segments and decipher your graphs. Our program will give you the expertise you need to create immersive, interactive data visualizations.

Discover the undeniable advantages of the mobile version of Power BI and master how to adapt it to the mobile format. At the end of this training course, you'll be able to design data visualizations that are adapted, accessible and convincing.

Like all our training courses, this one will introduce you to the latest version of the tool, [PowerBI 2.128](#).

- The mobile billboard
- Add items
- Stylizing your pages
- Accessibility rules
- Practical work: Creating customized pages for Power BI mobile

Publication and availability to users

- Workspace management
- Share your visuals
- Authentication

Companies concerned

This training course is aimed at both individuals and companies, large or small, wishing to train their teams in a new advanced computer technology or to

acquire specific business knowledge or modern methods.

Positioning on entry to training

Positioning at the start of training complies with Qualiopi quality criteria. As soon as registration is finalized, the learner receives a self-assessment questionnaire which enables us to assess his or her estimated level of proficiency in different types of technology, as well as his or her expectations and personal objectives for the training to come, within the limits imposed by the selected format. This questionnaire also enables us to anticipate any connection or security difficulties within the company (intra-company or virtual classroom) which could be problematic for the follow-up and smooth running of the training session.

Teaching methods

Practical course: 60% Practical, 40% Theory. Training material distributed in digital format to all participants.

Organization

The course alternates theoretical input from the trainer, supported by examples, with brainstorming sessions and group work.

Validation

At the end of the session, a multiple-choice questionnaire verifies the correct acquisition of skills.

Sanction

A certificate will be issued to each trainee who completes the course.
